

GOAL

The goal of ACT is to give the client comprehensive and individualized community care to help them have a life that is not controlled by their mental illness.

INDIVIDUALIZED CARE

Clients get help with taking care of their basic needs like taking medications, finding housing, obtaining benefits, going back to school or getting a job.

TEAM

ACT is a team approach that includes a psychiatrist, nurses, social workers and other mental health professionals who work together to give the client ongoing and individualized care. Services are provided in the client's home, in the office or in the community.
