

2018 Seclusion and Restraint Annual Report

Goals and Timelines for elimination of restraints: It is the goal of Recovery Technology to never use restraints. However, there are times when it becomes necessary for the safety of a client or others to use restraints on a very limited and temporary basis.

Progress made toward goals: Recovery Technology did not utilize any seclusion or restraint techniques in 2018 . In addition, new staff was trained in CPI and current staff received their refresher course this past year as a result of Recovery Technology having a CPI trainer on staff.

Areas for improvement: Maintain training of all staff in the use of CPI.

Factors impeding elimination of the use of seclusion and restraints: N/A
